Our Environmental & Quality Assurance

Big impact on kids' happiness...

Little impact on the environment.

Our products provide our future generations with so much fun and joy as well as a greener future for generations to come. We are committed to a circular environment where environmentally sustainable printing and fully recyclable packs are at the heart. Better for the kids of today and tomorrow.

We take quality and the environment seriously, that is why all our printing is done right here in Australia to both ISO9001 Quality and ISO14001 Environment standards.

You can be assured you are receiving the highest quality products available in Australia. Colour proficiency and print quality are continually monitored to ensure a premium product.

When printing on FSC certified papers and cardboard we are utilising eco-friendly and sustainably sourced stocks. Having a positive impact on the environment as well as bringing the joy.

The importance of safety cannot be undervalued. All Kids Packs crayons are tested by an accredited NATA Approved Laboratory to ensure no toxins are present and only natural ingredients are used.
